VAN BUREN BOYS A fun-loving and animated band, the Van Burens strive to make each concert experience unique. The band – named after the eighth and greatest President of the United States, Martin Van Buren – began when a high school band reformed post-college and began gigging at bars and house parties, boasting an eclectic catalog of original music and covers and displaying a singular sense of humor. The style of the music ranges from funk to progressive rock to electronic dance grooves to anything that fits the mood.

KEVIN MORSE Kevin Morse has spent his life dedicated to the development and mastery of the Classical Guitar. In 1992 he was the winner of a prestigious International Competition sponsored by "Guitar Player Magazine", where he was named the "Ultimate Classical Guitarist" from an extensive field of players from Europe and the United States.
